

MOHTASHIM JAVED

Full-Stack Developer | MERN & Next.js Specialist

+92 3174159475

hafizmohtashim3157@gmail.com

Karimabad, Karachi

Summary

Dynamic Full-Stack Developer specializing in the MERN stack and Next.js, with a proven track record of optimizing frontend performance by 25% and building secure, real-time architectures. Proficient in engineering robust RESTful APIs, implementing relational and non-relational databases (MongoDB, Supabase), and crafting seamless user interfaces with TypeScript and Tailwind CSS. Adept at leveraging modern development practices to deliver scalable, user-centric, production-ready web applications.
